ELSIE ADAIR AND SUPPORT WELL
RECEIVED AGAIN.

An Entirely Changed Program and All
Well Pleased—New Specialties—Sat-
urday Night's Show.

The Elsie Adair Company scored another great success at the military opera house Thursday evening. A large audience enjoyed the entertainment. All were more than pleased with it. Many pronounced it far superior to the opening program, and in many respects it probably was. A more complete and a richer program was staged. There were many brilliant features that were admirably sustained. Light effects were more beautiful and, if possible, the players were in their better moods.

The entertainment opened with a pleasing little comedy entitled "A Happy Pair," introducing the popular Miss Adair and Mr. Vanderlip. Miss Jardine sang a German selection and made a hit with her wooden shoe dance. She appeared in the costume of a Deutscher peasant woman.

Mr. Emmett's "Merry musical monologue" was one of the happiest features of the evening. As a burnt cork artist he proved a gem, and with his violin he more than delighted the audience. His musical imitations were very clever performances and his remarks abound in comicallities which kept the house in a roar of laughter. He was encored and responded with several extra specialties.

Miss Adair's serpentine dances were the same as on the first evening, though under different and vastly improved conditions. The light effects were perfect and brought out the manifold colorings superbly.

The shadow pantomime was new to many and took well. Miss Jardine, Mr. Vanderlip and Mr. Arnold were the principals in it. The scene was "The Streets of New York."

Miss Adair appeared on the stage near the last and sang three specialties. The last two were in response to encores. Her "I Want Yer Mah Honey" was delicious.

The entertainment closed with a roaring negro farce in which Mr. Emmett, Mr. Vanderlip and Mr. Arnold appeared to fine effect. It proved a catching afterpiece and a fine "set-off" for the splendid performance.

The greatest program of the week will be put on tomorrow evening. The box plan is now open at the store of Wall, Nichols Co. Every effort will be made to accommodate the large Saturday night audience.

NEW COFFEE DISTRICT.
J. F. Brown, Government land agent, left by the W. G. Hall this morning for Maui. He is an apostle of the idea that coffee can be grown on that island and goes over to look up the prospects. Several points will be visited and all persons interested in the subject of coffee will be consulted. Plants now growing experimentally on Maui will be examined.

THE HUM OF INDUSTRY

RUNNING OVERTIME AT THE HONOLULU IRON WORKS.

Many Important Contracts—An Increased Force—Some of the Larger Jobs Handled—More Rush in Sight.

During the past three months business at the Honolulu Iron Works has picked up wonderfully. Never before in years has such a hammering, clinking and humming of machinery been heard as is now to be noticed in the nest of big brick buildings around the corner at Nuuanu and Queen streets. In some shops the force has been doubled. In the blacksmith department, five men are now employed where there were lately but two. All of the shops carry more men, and in all of them the hum of business is constantly kept up.

The reason of this large increase of business and the smile of Manager Hedemann is perhaps the improvements being made in plantation machinery and the increasing demand for modern appliances. Large contracts have piled up during the summer from several of the most extensive mills. All are throwing out the appliances of a few years ago and are coming over to the new ideas.

These are some of the contracts filled by the Iron Works during the past two months: Five Honolulu Iron Works sugar mills—four three roller, and one two-roller; engines, gearing, etc., for same; two large vacuum pans, 17 to 20 tons each; one same, smaller size, three cells for addition to double effect; eight mammoth boilers, six of which were for plantations; large triple effect for Puna mill now being shipped out; a 90-foot tank for molasses, weighing forty tons, for Panauhau plantation; boilers and repair work for the steamers Mikahala and John A. Cummins. This in addition to the raft of smaller jobs that have constantly poured in.

The five sugar mills referred to are in process of construction. They are a compromise between the big mill in use at Ewa and a pattern formerly gotten out by the Honolulu Iron Works, and are considered by the designers an improvement on both. The big shafts are now being placed and all of the mills will be ready for the coming season.

The busiest season is yet to come. As the grinding season draws near rush contracts will begin to come in. Several large orders are now in sight with many more to follow. It is calculated that in the next two months the works will turn out more machinery than ever before in a like period.

The mechanics of the city have reaped great benefit from the rush. Every one available who could perform the duties required has been employed and as many as twelve new men have been imported from San Francisco. The latter have come as extra help. No former employees were let out to make room for them. For six weeks the Works have run steadily up to 8 p. m. every day. Prior to that time the closing hour was 5 o'clock.

With the increase in manufacturing the amount of casting to be done has augmented. At present the Works casts three times a week with ten tons of iron and some brass at a cast. This is unprecedented in the history of the institution.

MODEL BARBER SHOP.

The Criterion barber shop made another stride ahead Thursday afternoon by adding to its already superb conveniences an electric fan. It is a pretty, gilt-lined affair with porcelain bracing. The force is sufficient to cool every quarter of the shop. Today "the last straw" came in the shape of a specially designed wash and shampoo stand. It contains three large lined basins with water connected with each.

BOY BEATEN.

Look Refuge at the Home of Another—The Case Brought to Court.

A telephone message was received at the station house about 11 o'clock Thursday night to the effect that Mrs. William McGurn was beating her young son in a brutal manner. She was in liquor. After a time the child escaped and went to the house of house of Judge De la Vergne, where he was taken care of through the night. There were huge welts on his back and arms. This morning a warrant was filed for the arrest of Mrs. McGurn. This action was later withdrawn and Albert McGurn, uncle of the child, began civil proceedings against the woman to have her adjudged an incompetent guardian of the little fellow.

AT WAIKANE.

Mr. and Mrs. E. A. Jones Will Entertain a Number of Friends.

E. A. Jones and family will have quite a reception at their Waikane home tomorrow. A big luncheon is one of the numbers on the day's program. Mrs. Jones, Mrs. E. R. A few members of the party will return Monday, and the others will remain a week at Waikane.

WATER WORKS.

The pumping plant at Beretania and Alapai will be closed down from today until Monday, for the purpose of cleaning.

WARNING NOTE SOUNDED

A LONDON NEWSPAPER SPEAKS OF FIGHTS AHEAD.

Great Britain May Lock Horns With Several Countries—Cuban Rebels not Liked—New Bicycle Record.

LONDON, Aug. 4.—The Post publishes a long article on England's relations with Germany, in the course of which it says: The maintenance of British rights in America, Africa and Asia may at any time involve the necessity of fighting America, France and Russia. It behooves us therefore to consider our relations with the other powers. It is a fact that in January the question of how best to fight the British navy was seriously considered at Berlin, but the plan of a campaign against England was mapped out by a strategist most competent to deal with the problem. This fact has never been published before, and we are bound to admit that the present tone of the inspired German press ought to put our statesmen on their guard.

AGAINST CUBANS.

LONDON, Aug. 2.—The Greek and Cretan revolutionists are regarded in England as worthy patriots, but the Cuban rebels are condemned with coarse irony as half-breed negroes, who are conspiring to convert the island into another Hayti, as the natural home of organized murder, cannibalism and human sacrifice.

This is the view taken by James F. Kelly in an astonishing article in the August New Review, in which he describes the rebellion as a financial conspiracy instigated by speculators in New York and Key West, who are aiming at boodle and plenty of it.

BEAKELY SOLD.

SEATTLE, Wash., Aug. 3.—The brigantine Beakely was sold today by the United States Marshal to E. F. Sweeney, a brewer of this city, for \$1605. The claims against the Beakely amount to \$1,200. A claim for salvage will be filed by the vessel which aided the brigantine when she was aground in Cook's inlet.

BEAT JOHNSON'S TIME.

LONDON, Aug. 3.—At the Woodgreen cycle meeting today the Englishman, J. Platts-Betts, with a standing start, did a mile in 1:48, thus beating the record by 2 1/5 seconds.

John S. Johnson did a mile with a standing start paced in 1:50 1/5 at Louisville, on November 7, 1895.

CAN'T SELL.

The Cities of New York and Brooklyn Test the Market.

NEW YORK.—In accordance with the advertisement calling for bids for \$3,805,196 of 3 1/2 per cent bonds of the city of New York, Comptroller Fitch opened the tenders. The aggregate of the bids, twenty-two in number, amounted to only \$1,010,000, the price ranging from par to 109.5, the latter for only \$10,000 of the issue. The result was very discouraging to the comptroller, at whose suggestion, a year ago, it was decided that future issues of bonds should be made payable in gold, the rate of interest being at the same time increased from 3 to 3 1/2 per cent. In Brooklyn \$1,535,000 of 3 1/2 per cent gold bonds were to have been awarded, but as only two bids had been received, it was decided not to open the tenders until September 15.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

THE WISDOM OF WOLCOTT

COLORADO'S JUNIOR SENATOR ON SILVER QUESTION.

Will Not Follow His Colleague, Henry M. Teller—In for a Campaign of Education—Speaks of Bryan.

"Because, therefore, I believe that free coinage will come through the efforts of the Republican party, and because the Democratic and Populist platforms, except on the money question, are odious and hostile to the welfare of our country, I shall not cast my vote for Mr. Bryan. I hold to my party. Many of its members, including some of its leaders, in the exercise of their judgment, have announced their intention of leaving the party. I shall stay. My loyalty to the party which has honored me is entirely consistent with my loyalty to the highest and best interests of the State I represent in the Senate of the United States, and I know no reason why I should abandon my party or desert its colors.

"There is to my mind no reason why it was not as much our duty to vote for Weaver four years ago as for Bryan today. The Omaha platform declared for free coinage and was no more objectionable than the Chicago platform and Bryan is vouched for by leading Populists as being 'as good a Populist as lives.' The Populists have not changed in the past four years. It is we who are expected to join their aggregation. Others may find it wise or expedient, but I won't do it. Whenever the course of events would make it possible that I should speak from the same platform as Tillman or Waite or Ignatius Donnelly in advocacy of the same Presidential candidate I know there must be something wrong with me.

"We who believe in the free coinage of both gold and silver at our mints, at the ratio heretofore existing, will secure the adoption of our views when we are able to induce the majority of our fellow citizens to share our belief; when people who do not now agree with us shall be led to agree with us, not alone because of our arguments on finance, but because our views on other great questions entitle us to public confidence and respect. Free coinage will never come, in my opinion, out of the jumble and folly of the Chicago platform, nor will it be heralded by the cap and bells of Populism.

"EDWARD O. WOLCOTT."

CRITERION BARBER SHOP.

Finest Appointed Establishment on the Hawaiian Islands.

Several times within the past few months the Star has had the pleasure of calling the attention of the public to the Criterion Barber Shop as an example of what push and energy can do where properly applied. Messrs. Pacheco & Fernandez, proprietors of this shop, have done all that they started out to accomplish, namely: to have the best appointed barber shop in Hawaii. The last two additions to the shop, to make it absolutely complete, have been the placing of an elegant electric fan directly over the three chairs so that a constant steady breeze is felt by those who are undergoing a refreshing midsummer visit to the silent barbers. This fan has also four incandescent light fixtures, which gives a daylight appearance to the interior. The other addition is a magnificent three basin center wash stand with center faucet and a hot and cold water faucet for each bowl. Under such conditions, the handsomest shop, all modern convenience, and expert tonsorial artists, it is no wonder that this shop should have an ever increasing patronage, which it rightfully deserves.

"Can't Go Wrong"

That is how visitors feel, directly they step into Kerr's store on Queen street, and it requires no special exertion on the part of the management to place the very best and newest goods at the lowest prices at the disposal of intending purchasers.

No Time Should Be Lost

Printed lawns at 12 1/2c, and figured Dimities at 15c, all fast colors, are not every day chances. At the same time look at the 56-inch Black Alpaca at 55c, 75c and 85c per yard at Kerr's, Queen street.
